CROSS CHANNEL INSTITUTE NEWSLETTER

Issue 20 | June

Foreword

Dear ,

Springtime has been a significant season for the Cross Channel Institute. We published our Sectoral Analysis on Transport but also organized some exclusive interviews.

On June 21st, the Cross Channel Institute will release its Economic Barometer. We would be delighted to welcome you for the occasion.

Do not hesitate to visit the [Cross Channel Institute website](#) and to follow us on our social media.

If you have any suggestions or requests on specific topics, please let us know.

Best wishes,
Françoise Rausch

PUBLICATIONS

Sectoral Analysis

Transport : Franco-British Trade in the light of Brexit and Covid-19

Last month, The Cross Channel Institute, in association with the Department for International Trade, published an update on its Sectoral analysis on transport.

This publication is available on our website in both French and English.

France GDP : Indicator recovered in retail trade

The National Institute of Statistics and Economic Studies (INSEE) published their monthly update on France GDP. The business climate indicator dropped from 115 in January to 105 in May...

UK GDP: Small fall in April 2022

After a decline of 0.1% in March 2022, UK GDP keeps falling. This is the first time that all main sectors have contributed negatively to a monthly GDP estimate since January 2021 (production, construction, services...).

UK economy plagued by inflation

The UK economy is suffering a shock from higher energy prices, resulting in lower consumer purchasing power and a "cost of living crisis".

While the Bank of England has warned of a possible recession in the second half of 2022, Lombard Odier fears that GDP growth will not exceed 1.5% in 2023...

INSEE confirmed 5,2% inflation in France

In Europe, inflation is strong, in the United States it is at its highest, and in France it is also massive. This Wednesday, INSEE published its final estimate of the consumer price index for May...

Airbus opens hydrogen research centre in the UK

Airbus is strengthening its presence in the UK with the launch of a Zero Emission Development Center (ZEDC) for hydrogen technologies.

A priority for the UK ZEDC will be the development of a cost-competitive cryogenic fuel system required for the successful entry-into-service of Airbus' ZEROe passenger aircraft by 2035...
